

# Things We Should Not Flush!

Sung to the tune of *Sipping Cider through a Straw*

Help Roberta put her garbage in the correct place. Draw a line from the piece of garbage to the place it should be thrown out.

Answer: The plastic bottle, the aluminum can, and the newspaper should be recycled. The grease and the alkaline battery can be thrown away. Pills can be given to the APD Forensic Unit on Thursdays and they will dispose of them by burning them.

Let's start inside,  
And do not blush,  
Well, think of things,  
We should not flush,  
Let's start inside and do not blush,  
We'll think of things we should not flush.

Don't flush your toys.  
Iguanas too,  
Don't like to tra ...  
...vel , with your poo.  
Don't flush your toys. Iguanas too,  
Don't like to travel with your poo.

Our medicine  
we didn't use,  
Goes in the trash,  
Not in our loos  
Our medicine we didn't use,  
Goes in the trash, not in our loos.

If it is trash,  
Don't flush it down,  
You're wasting wa ...  
... ter for our town  
If it is trash don't flush it down  
You're wasting water for our town.

(How about the kitchen sink?)  
Now in your sink  
Don't pour all that  
Leftover ba...  
...con grease or fat.  
Now in your sink don't pour all that  
Leftover bacon grease or fat.

(How about the storm drain?)  
What goes in there  
Is not cleaned and  
It flows into  
The Rio Grande.  
What goes in there is not cleaned and  
It flows into the Rio Grande.

Pick up your trash  
and your dog's poop,  
Or rain will act  
just like a scoop.  
Pick up your trash and your dog's poop  
Or rain will act just like a scoop.
