

Doing Business with Us

Last Updated Wednesday, 09 January 2008

With \$181 million in open contracts, the Water Authority does business with a host of suppliers, contractors, vendors, service-providers and consultants. We solicit numerous bids and issue many Requests for Proposal every year, and we encourage participation by businesses small and large. Are you ready to make yours one of them?

Also, your business qualifies for the same rebate programs – from toilets to xeriscaping – enjoyed by our residential customers. So you can save water while you improve your bottom line.
