

WEST VALLEY PIPELINE
CAMPBELL ROAD CONSTRUCTION UPDATE
February 17- March 3, 2007

NOTE: On Saturday, Feb. 17th, RMCI crews will **reopen the intersection of Trellis Drive at Campbell Road** and will **close the intersection of Glenwood Drive at Campbell Road** so that they can continue laying pipeline across that intersection.

Westbound motorists can use Rio Grande to Candelaria to Trellis Drive as an alternate route. At least one lane of eastbound traffic will be maintained on Campbell Road during both working and non-working hours. Residents should expect delays.

Crews are also continuing to install large pipeline on the **north side** of Campbell Road from Trellis going east. They are continuing to lay pipeline from on Campbell from **Rio Grande going west toward a middle meeting point**. This is being done to expedite completion of the work.

The intersection of Glenwood Road at Campbell Road is estimated to be closed for approximately 10 days, weather permitting.

Crews will notify residents in advance to coordinate access when the pipeline is installed across their driveways. Also, as water meter relocations continue, RMCI will coordinate any temporary water shutoff requirements.

RMCI will need to return to the area west of Trellis **once the pipeline is installed through the intersection of Trellis and Campbell** to complete two valve vaults in Campbell west of Trellis. These vaults were left incomplete to allow the pipeline to be installed across Trellis prior to installing the pipeline across Glenwood. **By doing the construction this way, crews can prevent having to close both intersections at the same time.**

WORK HOURS: All work is scheduled weather permitting and is subject to change without notice. Work hours for this part of the project will be **7 a.m.-6 p.m. Mon.-Fri.** and **8 a.m.-3 p.m. Sat.**, but are subject to change if needed.

FOR MORE INFORMATION: Call **Shannon Zamarrin** at **306-8452** cell; **293-2000** office, **Patti Watson** at **269-9691** cell; or **Mike Tinajero**, RMCI Superintendent, at **681-9025**.
