4. Term for which goods and/or services will be purchased pursuant to this request (mark only the option which applies):

a. 4 **Years**/Months/Weeks/Days (circle one)

b. This is a one-time sole source purchase, to be completed within the next fiscal year.

5. Identify the specific circumstances that require a sole source purchase of the goods and/or services requested:

SOLE SOURCE PURCHASE REPORT

- a. Brief description of the purpose of the goods or services to be purchased:
The consumables purchased from IDEXX are for EPA approved microbiological analysis used for compliance samples. We conduct these analyses to satisfy federal regulators by meeting our permitting requirements. These requirements help to protect health and the Rio Grande.
- b. Reasons for need of goods and/or services from the specific supplier. Any one reason, by itself, does not necessarily justify a sole source purchase (mark all that apply):
- i. A diligent inquiry failed to identify any source for the same or similar goods and/or services that will substantially accomplish the same or similar functions to those provided by the source identified above. If so, identify which of the following steps were taken to establish a good-faith review of available alternative sources and provide written justification verifying the actions below were taken (mark all that apply):
 1. Contacted various suppliers of similar goods to discuss alternative options;
 2. Performed product research for potential alternative sources;
 3. Consulted with subject matter experts to identify potential alternative sources;
 4. Other (specifically describe any actions taken, attach additional sheets if necessary):
- (Inability to locate other sources via internet search will not suffice as acceptable due diligence.)
- ii. The goods and/or services offered are unique or proprietary in form, fit, and function. If so, describe the unique or proprietary qualities of the goods and/or services; if available, provide documentation of their unique or proprietary nature, e.g. evidence of patent/copyright/secret processes/limited rights in data (attach additional sheets if necessary):
 - iii. Use of goods and/or services from sources other than an Original Equipment Manufacturer will require substantial modification to equipment or systems currently in use, resulting in substantial duplication in cost to the Water Authority that is not expected to be recovered through competition and/or unacceptable delays in fulfilling the Water Authority's requirements. If so, describe the modifications, potential costs, and/or delays associated with making substitute goods and/or services compatible with current equipment or systems (attach additional sheets if necessary):
 - iv. The procurement requires a specific supplier of goods or services. If so, identify one or more of the following reasons and provide written justification verifying that the statement below is true:
 1. Limited availability of goods or services;
 2. Proven quality, accuracy, and/or dependability;
 3. Compatibility considerations;
 4. Safety considerations;
 5. Warranty issues or guarantee of parts performance;
 6. During the system design process, several alternatives were evaluated and the current proprietary process was selected;

SOLE SOURCE PURCHASE REPORT

7. Other (specifically describe any other reasons, attach additional sheets if necessary):
- v. The goods and/or services cannot be purchased by the Water Authority from any other supplier, e.g. the supplier has a protected territory established by the original producer of the goods or services. If so, attach written documentation from the original producer verifying the availability of sources for goods and/or services.

See sole source letter from Idexx.

6. Describe the reasons the purchase is in the public's interest (attach additional sheets if necessary):
The Water Quality Laboratory is certified by the New Mexico Environment Department using IDEXX products to conduct its microbiological analysis on drinking water samples. The lab's work help the Water Authority demonstrate compliance with the Safe Drinking Water Act. The ratepayer currently pays for the analyses through a tax accessed by the State of New Mexico. Having the Water Authority conduct the analysis returns much of that money back to utility to support and improve its mission to protect public health and safety under the Safe Drinking Water Act. Also, IDEXX products help improve laboratory efficiencies by reducing the amount of time required to determine a final result. Most standard methods or e coli require two separate tests and a 48-hour incubation period. IDEXX products have reduced the incubation period to 24-hours with only one test.
7. Attach negotiated cost or fee schedule, as applicable, along with evidence confirming that the price is most advantageous to the Water Authority.

Requirement:

At least fifteen days before a sole source contract is awarded, the Central Purchasing Office shall post this notice of intent to award any sole source contracts for goods, services, or construction, on its website.

Any qualified potential contractor may protest an intent to award a sole source procurement to the Central Purchasing Office. The protest shall be submitted in writing within fifteen calendar days of the notice of intent to award a contract being posted by the Central Purchasing Office.
