

# Catfish

<http://www.wildlife.state.nm.us/fishing/game-fish/warm-water/>

- ◆ Catfish can use their whiskers to find food in the muddy Rio Grande.

◆ Newly hatched catfish eat dragonfly larvae and water beetles. Adult catfish eat smaller fish, snails, crayfish and some eat water plants or algae.

◆ Catfish are delicious, and we often see people fishing for them at the banks of the Rio Grande.

- ◆ Los bagres pueden utilizar sus bigotes para encontrar comida en el lodoso Río Grande.

◆ Los bagres jóvenes comen larva de libélulas y escarabajos. Los bagres adultos comen peces pequeños y plantas del agua o algas.

◆ Los bagres son deliciosos, y con frecuencia vemos a personas pescándolos en el Río Grande.
